GATEWAY MONTESSORI SCHOOL

Director/contact: Katie Cosmi **e-mail:** kcosmi@gatewaymontessori.org

Purpose: We believe that by encouraging an enthusiasm for learning, and by building self-esteem, independence, and creativity, we are preparing the child not just for school, but also for life. We provide a quality, personalized, nurturing atmosphere in which these attributes can develop and a philosophy that values the uniqueness of each individual. Montessori is based on a profound respect for a child's personality, and encourages children to develop their independence and build their self-esteem through meaningful action. The method has helped to prove that the small child can be a lover of work – intellectual work, which is spontaneously chosen, and carried out with profound joy. The curriculum is based on the child's inner need to "learn by doing". At each stage in the child's mental growth, corresponding materials are presented which help develop and refine their abilities.

Activities: Programs include infant, toddler, and primary with full day, half-day, and before and aftercare options. All classrooms are a five-day a week program. Spanish and Music classes are offered twice a week in the mornings.

Purpose: To address the needs of 3 to 7 year olds whose emotional, behavioral, and developmental challenges are interfering with success in traditional preschool or daycare setting. Our model combines the best practices in early childhood education with a comprehensive understanding of child development. In our specialized classroom, we blend an educational curriculum with therapeutic services to strengthen the child's emotional resources, social capacities, cognitive development, motor skills, speech, and language. We work individually with each child while strengthening the group experience and enhancing the parent-child tie.
